

Dear Sir/Madam

I am a parent of an 18 yr old girl with autism and my daughter is today in a very good place because of ABA and because of professionals who do ABA.

My husband and I are residents of this beautiful state of CT since 1997. Ramzi and Rima Bishuti and our address is 44 September Place, Fairfield CT 06824.

We both STRONGLY OPPOSE SB 1105 and believe that it would be DETRIMENTAL to the education of children with autism.

Our school systems are already short staffed in SLPs and Sped teachers and so it would be unfair to ask that they would provide ABA. ABA is a complex methodology and should be applied and used by pure ABA professionals. We are shortchanging the education of our children if we pass this law.

Sincerely
Rima and Ramzi
Bishuti
